SAHANA MADHAVAN

Product & Program Manager — AI-Enabled Product Execution & Data-Driven Strategy
Dallas, TX — sahanamadhavan2608@gmail.com — +1 (945) 243-7395 — LinkedIn — GitHub

PROFESSIONAL SUMMARY

Product & Program Manager with 1.5 years of experience taking AI-powered features from conception to launch, using data to influence executive decisions, and driving cross-functional delivery on an enterprise SaaS platform. Track record of building rigorous independent analytics projects, delivering formal training programs for enterprise clients, and evaluating generative AI tools to improve team output. M.S. in Systems Engineering and Management enables a structured, analytical approach to product strategy and execution.

PROFESSIONAL EXPERIENCE

Product & Customer Success Associate — *ECSite Inc. — Telecom SaaS Startup* ***Aug 2025 – Present***

- Built and delivered an executive presentation to the CEO and VPs recommending prioritization of an end-to-end incident reporting flow, citing a year-over-year usage comparison projecting a 45% increase in account usage, successfully shifting development priority.
- Took a PDF-to-form and prompt-to-form AI feature from conception to launch, writing requirements and acceptance criteria, working directly with JSON payloads, and partnering with engineering through development and release.
- Identified a declining usage trend for an enterprise account (license count dropped from 50 to as low as 10), led a root-cause investigation, and drove a resolution that grew the account to over 50, surpassing the original baseline.
- Designed and delivered formal training programs for enterprise clients including AFL Global, Telamon, and Meta, including in-person visits to AFL and Meta data centers.
- Proactively identified and secured 2 new enterprise clients through outreach at NATE and TEXO industry conferences, and evaluated 6 generative AI models to select the best tool for a task, improving output quality by 30%.
- Managed accounts payable and accounts receivable, used SQL to query usage and adoption data, and tracked risks and dependencies using Smartsheet, JIRA, and Confluence for 6–10 enterprise accounts.

Global Network Services Intern — *Pitney Bowes* ***Jun 2024 – Aug 2024***

- Built KPI dashboards using Power BI and Excel to track team performance metrics, improving reporting visibility by 15%.

Project Support Intern — *Ford Business Solutions* ***Jun 2022 – Sep 2022***

- Developed automated reporting dashboards, improving reporting accuracy by 25% and enabling data-driven decision-making.

PROJECTS

Product Pulse — Activation & Retention Case Study — *Data Analytics Project* ***Jan – Aug 2026***

- Built two Tableau dashboards and a hypothesis-driven A/B comparison across 6,000 simulated users, identifying a 15.9-point mobile activation gap and a 21.7-point retention lift (34.1% vs. 12.4%), with statistical analysis supported by Python and SciPy.

My Board — Task & Account Management Tool — *Product Project* ***Jun 2026***

- Led the design and delivery of a mobile-first task and account-management tool, defining feature scope and an AI-powered call-summary capability that reduces a 30-minute call review to under a minute.

EDUCATION

M.S. in Systems Engineering and Management ***Aug 2023 – May 2025***
The University of Texas at Dallas
Officer, The Product Base Club

Bachelor of Engineering (B.E.), Electronics and Communication Engineering ***Jul 2019 – May 2023***
Anna University, India

CERTIFICATIONS

- AI Fluency Framework & Foundations – Anthropic **Aug 2025**
- Aha! Product Management Professional Certificate – Aha! **Jun 2025**
- Generative AI Overview for Project Managers – Project Management Institute **Jul 2024**
- AWS Certified Cloud Practitioner – Amazon Web Services **Apr 2024**

SKILLS

Product & Program Management: 0-to-1 Launch, Requirements & User Stories, Roadmap Strategy, OKRs, UAT, Stakeholder Mapping
Data & Analytics: SQL, Tableau, Power BI, A/B Testing, Statistical Analysis, Market Analysis
AI Tools: Claude, Gemini, ChatGPT, Perplexity, Copilot, DeepSeek
Tools: JIRA, Confluence, Smartsheet, AWS
Core Strengths: Analytical thinking, Data-driven influence, Cross-functional collaboration, Problem-solving, Self-starter
